

Section 1- Identification of the Material And Supplier**1.1. Product identifier**

Product name : **ACOUSLIME ACRYLIC CAULKING**

Product Code : C00009 (06162 e seg.)

1.2. Relevant identified uses of the substance

Water based Acrylic sealant for construction/wood

1.3. Details of the supplier of the safety data sheet

Registered company name : ACOUSLIME Pty Ltd .

Address : Shop 6 /37 Wells Rd. Seaford VIC 3189.

Telephone : Ph +61 3 9776 4433 & +61 439 639 117

Email : admin@acouslime.com.au

Police or Fire Brigade Ph. 000

1.4. Emergency Telephone numbers

Poisons Information Centre: Phone 13 11 26 from anywhere in Australia 24 hour Service
Phone 0800 764 766 in New Zealand

Section 2 – Hazards Identification**2.1. Classification of the substance or mixture**

This product is not classified as hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements)

2.2. Label Elements

Hazard pictograms: --

Signal words: --

Hazard statements: --

Precautionary statements: --

This product is not subject to hazard labeling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

2.3. Other hazards Information not available.

Section 3 – Composition & Information on Ingredients**3.1. Substances**

The product does not contain substances classified as being hazardous to human health or the environment pursuant to the provisions set forth in Directives 67/548/EEC and/or EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements).

3.2. Mixtures

Other ingredients: calcium carbonate, titanium oxide (and other non-hazardous additives).

Section 4 – First Aid Measures**4.1. Description of first aid measures**

Nevertheless, observance of good industrial hygiene is recommended.

4.2. Most important symptoms and effects, both acute and delayed

No episodes of damage to health ascribable to the product have been reported.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available.

Section 5 – Fire Fighting Measures**5.1. Extinguishing media**

SUITABLE EXTINGUISHING MEDIA

The extinction equipment should be of the conventional kind: carbon dioxide, foam, powder and nebulised water.

EXTINGUISHING MEDIA WHICH SHALL NOT BE USED FOR SAFETY REASONS

None in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

Do not breathe combustion products (carbon oxide, toxic pyrolysis products, etc).

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Hardhat with visor, fireproof clothing (fireproof jacket and trousers with straps around arms, legs and waist), work gloves (fireproof, cut proof and dielectric), a depressurised mask with facemask covering the whole of the operator's face or a self-respirator (self-protector) in the event of large quantities of fume.

Section 6 – Accidental Release Measurements**6.1. Personal precautions, protective equipment and emergency procedures**

Use breathing equipment if fumes or powders are released into the air. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate the sewers, surface water, ground water and neighbouring areas.

6.3. Methods and material for containment and cleaning up

Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

Section 7 – Handling and Storage**7.1. Precautions for safe handling**

Before handling the product, consult all the other sections of this material safety data sheet. Do not eat, drink or smoke during use.

7.2. Conditions for safe storage, including any incompatibilities

Normal storage conditions without particular incompatibilities. Store in a dry place between 5 and 25 ° C.

7.3. Specific end use(s)

Information not available.

Section 8 - Exposure Controls and Personal Protection**8.1. Control parameters**

Information not available.

8.2. Exposure controls

Observance of safety measures used in handling chemical substances.

RESPIRATORY PROTECTION - None required.

EYE PROTECTION - None required.

HAND PROTECTION - None required.

SKIN PROTECTION - None required.

Section 9 – Physical and Chemical Properties

9.1. Information on basic physical and chemical properties.

| | |
|---------------------------------------|------------------|
| Appearance | Pasty |
| Colour | Various |
| Odour | Mild |
| Odour threshold | Not available |
| pH | 8.5 |
| Melting or freezing point | Not available |
| Initial boiling point | 100° C |
| Boiling range | Not available |
| Flash Point | Not available |
| Evaporation rate | Not available |
| Flammability of solids and gases | Not available |
| Lower inflammability limit | Not available |
| Upper inflammability limit | Not available |
| Lower explosive limit | Not available |
| Upper explosive limit | Not available |
| Vapour pressure | Not available |
| Vapour density | Not available |
| Specific gravity | 1,75 + 1,79 Kg/l |
| Solubility | Soluble in water |
| Partition coefficient:n-octanol/water | Not available |
| Ignition temperature | Not available |
| Decomposition temperature | Not available |
| Viscosity | Not available |
| Reactive properties | Not available |

9.2. Other Information

| | |
|----------------------------|---|
| VOC (Directive 199/13/EC): | 0 |
| VOC (volatile carbon): | 0 |

Section 10 – Stability and Reactivity

10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

10.2. Chemical stability

The product is stable in normal conditions of use and storage.

Section 10 – Stability and Reactivity (Continued)**10.3. Possibility of hazardous reactions**

No hazardous reactions are foreseeable in normal conditions of use and storage.

10.4. Conditions to avoid

None in particular, however the usual precautions used for chemical products should be respected.

10.5. Incompatible materials

Information not available.

10.6. Hazardous decomposition products

In the event of thermal decomposition or fire, vapours potentially dangerous to health may be released.

Section 11– Toxicological Information

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled according to good industrial practices.

11.1. Information on toxicological effects

Information not available.

Section 12 – Ecological Information

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

12.1. Toxicity

Information not available.

12.2. Persistence and degradability

Information not available.

12.3. Bioaccumulative potential

Information not available.

12.4. Mobility in soil.

Information not available.

12.5. Results of PBT and vPvB assessment

Information not available.

12.6. Other adverse effects

Water hazard class 1 VwVwS (D) 17.05.99 Att 2 (1 = slight hazard).

Section 13 – Disposal Considerations**13.1. Waste treatment methods**

Reuse, when possible. Neat product residues should be considered special non-hazardous waste. Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.

CONTAMINATED PACKAGING Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations. The valid EEC waste code are largely source-related; the manufacturer is, therefore, unable to specify waste codes for products used in various sectors. Small quantities of cured product can be treated as industrial waste similar to MSW.

CER-code (suggested): 08 04 10.

Section 14 – Transportation Information

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

Section 15 – Regulatory Information**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.**

Seveso category - None.

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006
- None.

Substances in Candidate List (Art. 59 REACH) – None

Substances subject to authorisation (Annex XIV REACH) - None

Healthcare controls
Information not available.

Product not intended for uses provided for by Dir. 2004/42/CE.

15.2. Chemical safety assessment

No chemical safety assessment has been processed for the mixture and the substances it contains.

Section 16 – Other Information**GENERAL BIBLIOGRAPHY**

1. Directive 1999/45/EC and following amendments
2. Directive 67/548/EEC and following amendments and adjustments
3. Regulation (EC) 1907/2006 (REACH) of the European Parliament
4. Regulation (EC) 1272/2008 (CLP) of the European Parliament
